

Fully automatic eight-directional pressing force tester

MODEL: WE-580

This machine is suitable for vertical pressure test in all directions

Dedicated control system for precise control of the pressure and position

Customized testing equipment and tools

Test items

1. Electronic product pressure test
2. Various types of interface force detection
3. Compression life test

Product features

1. The pressure range, output force and test angle can be adjusted according to customer's needs
2. High repetition accuracy
3. Displays clear and straightforward pressure curves
4. Suitable for 4~17-inch electronic product

Technical Parameters

Model	WE-580
X-axis test stroke	450mm
Y-axis test stroke	390mm
Z-axis test stroke	450mm
T-axis rotation angle	0° -360°
Max. test speed	50mm/s
T-axis max. rotation speed	60° /s
Display accuracy	0.001kg
Resolution	1/10000
Control method	PLC + Man Machine + Servo Motors
Machine size	1210mmX1200mmX2230mm (L/W/H)
Power supply	AC220V 50HZ
Max. power	800W
